How to Find an Indexed Image

1. Log in to Web Xtender (WX).
2. Select the appropriate Application.
3. Right click and select New Query or double click to start a New Query.
4. Enter the Query criteria (e.g., SSN or ID).
5. Review the Results Set to locate the image you need.
6. Double click the row that contains the image you need.
7. If prompted install the Active X controls so that you can zoom in, print and rotate the image as needed.
